The latest information on modifications to Mecklenburg County Code Enforcement services is available [HERE](#).

LUESA offices remain closed to the public. Code Enforcement is still providing services with the following modifications to allow for customer and staff safety:

- Plan review conducted electronically. Staff will contact to arrange video chat meetings.
- The County Fire Marshal's office will continue conducting inspections and investigations, but will take precautionary measures as appropriate.
- Live Remote Inspections (LRI) with certain guidelines.
- MCCE has resumed In-Person Inspections of occupied residence, only after verifying the health of the occupant and construction personnel. (If the contractor or resident is uncomfortable with an inspector, the inspection will be done LRI or deferred if not eligible for LRI.)
- Inspections NOT eligible for LRI:
 1. First-time framing inspections for wood-framed structures
 2. First-time electrical rough inspections
 3. Temporary power/temporary utility connections
 4. Temporary Certificate of Occupancy (TCO) inspections (available for commercial projects only)
 5. Final inspections for occupancy approval
